

FDA Letter

To the FDA:

RE: Docket NO. 98N-1265

7833 '99 JUL 12 A10:31

I am sending this letter as a consumer of healthcare services to register my concern and disapproval of the Memorandum of Understanding as published by the FDA on January 21, 1999.

In its present form, MOU, as well as the Compounding Section 503A of the Modernization Act, severely limits the rights of physicians and patients to obtain healthcare products from the provider of their choice. It also infringes on the rights of compounding pharmacists to serve the public's medical needs.

My compounded medication which uses natural ingredients is safer for me, with fewer side effects than a similar patented medication. Please do not pass any legislation which would restrict my physician's ability to prescribe, or my ability to purchase or receive delivery of a compounded medication, regardless of where I may live or travel. The MOU must be amended.

Thank you for your consideration.

Sincerely

*Barbara M Chandler*
